Curriculum Vitae

Timur is a senior consultant experienced in valuation and financial advisory. Timur performed financial analysis and business valuation of debt and equity investments and enterprise valuations for clients in various industries including manufacturing, retail, oil and gas, and financial services sectors.

Professional Experience

Prior to joining Credibility International, Timur was an analyst at Murray Devine & Company where he performed valuations of clients' investments. He also was part of the derivatives operations team in the treasury department at Capital One.

Representative examples of Timur's engagement experience include:

Valuation and Financial Analysis

- Performed portfolio valuations of debt and equity investments for institutional clients including business development companies, private equity firms, and hedge funds.
- Created and utilized financial models to perform enterprise valuation of privately held companies in various industries, including oil and gas exploration and development companies operating in the US and overseas. Analysis involved creating financials models for income and market approaches, proforma valuations for mergers and acquisitions, restructuring, and dividend recapitalizations.
- Drafted reports for clients, including valuation methodology, past and projected financial performance, economic conditions outlook, and key valuation assumptions.
- Conducted market and industry research and analyzed financial and legal information provided by clients.

Other Projects

- Developed a strategic plan to transform a client company's business model in order to meet its long-term goals.
- Created financial models to forecast and evaluate the company's projected financial performance based on various scenarios.
- Performed industry analysis, including market research and competitive landscape analysis.

Education and Languages

- Bachelor of Arts, Business Administration—University of Westminster
- Master of Business Administration (Finance) – American University
- Timur is a native Russian speaker and has reviewed and analyzed documents in Russian.
